Title: Nystul-A Biography

Author: Hands of Virtue  
-----

Little is known about this mysterious wizard. He is a good and loyal friend to Lord British, and has the well-being of the realm at heart. He holds the title of Court Mage.

Nystul is credited for destroying the tainted shards of the Gem of Immortality that fell on Britannia, by throwing them into a gate opened on the void between worlds. However, while the gate was open, the Guardian sucked Nystul's strength and the mage eventually became very ill and feeble. That's another reality of course.

During the Crisis in Britannia, Nystul created a special gate allowing the citizens of Trinsic to leave the city, while preventing Juo'Nar and his minions to enter it. He also warned Lord British of the dangers of using the Gate Travel spell to go to Yew, indirectly causing him to fall prey to the ambush orchestrated by Keeonean. Nystul also managed to open a gate to the Ethereal Void, where five brave adventurers could retrieve the ghost of Joye, and lead her to Dupre.

Perhaps the most famous accomplishment of Nystul was his ability to decode the book left by

Malabelle, and prepare the  
lantern lit from the  
Candle of Love for Dupre  
to use against the black  
temple of Trinsic.
